SANTINI CUSTOM SERIES

CRAFTED WITH PASSION, DESIGNED FOR EXCELLENCE

Experience the thrill of wearing a kit designed just for you, with the attention to detail that only Santini can offer. Because your story deserves to be told, on every road and in every race.

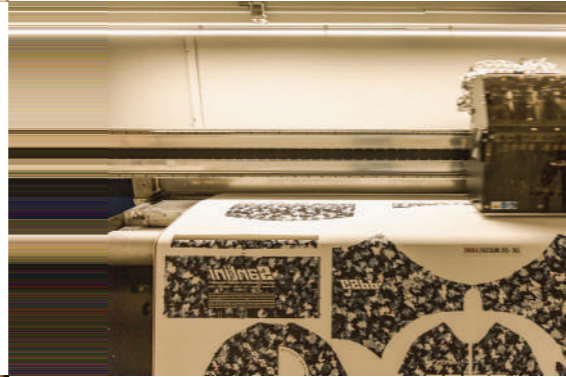

Join the #SantiniPeople community and turn your ideas into masterpieces.

YOUR CUSTOM KIT: FROM IDEA TO REALITY

DESIGN

Share your ideas with us. Our designers will transform your input into a detailed 3D draft, to show you how your kit will look like.

PRINTING

After the design is approved, the graphics are printed using state-of-the-art machines that ensure maximum resolution and vivid colours.

PRODUCTION

Your kit is meticulously assembled, piece by piece, in our factory in Bergamo, Italy to guarantee the highest quality and attention to detail.

DELIVERY

Once the kit is completed, we handle the logistics from our warehouse, to ensure a quick and safe delivery.

HOW TO ORDER

REQUEST A QUOTE

Contact us to receive all the necessary information. Fill out our form to request a quote.

RECEIVE YOUR QUOTE

After contacting us, a member of our staff will guide you in selecting the best options and features for your custom clothing based on your needs and budget, providing you with a detailed quote for your kit.

MEET A SANTINI AGENT AND DISCOVER THE DIFFERENCE

If you wish, one of our agents will visit your team with a sample kit. If we don't have agents in your area, we will send you a sample set from our collection. This way, you can see and feel the superior quality of our products.

DESIGN YOUR KIT

Once the quote is confirmed, our design team will work on your kit, starting from your team's colours and logos. You will receive 3D images of the front, back, and 3/4 views of your custom kit. The 3D view offers a realistic vision of the products, allowing you to perfectly check the placement and proportions of the logos.

CONFIRM YOUR DESIGN AND PLACE THE ORDER

Once you are satisfied with your kit's design, you are ready to place your order and we can start the production process. Our standard production time is 40 days from the confirmation of the design and order.

RECEIVE YOUR KIT

Once your order is produced, we check all items to ensure they meet our strict quality standards and prepare them for shipping. You are now ready to receive and enjoy your new kit.

High Performance Collection

The MADSS line, short for MEGA AERODYNAMIC SPEED SHELL, stands as a pinnacle of engineering, specifically crafted to optimize aerodynamic efficiency tested in the wind tunnel for competitive cyclists.

These masterpiece are the result of a collaborative effort with some of the world's top athletes, integrating their insights to push the boundaries of speed and performance.

A combination of advanced technology and innovative design to minimize drag and enhance overall dynamics, offering cyclists a significant competitive advantage in their pursuit of excellence.
